LOCATION

Lake Taupo - New Zealand

THE ULTIMATE WORLD CUP STOP OVER

Taupo

Located in the centre of the North Island, Lake Taupo is a perfect base from which to discover New Zealand.

Lake Taupo is a great vacation destination in both summer and winter. Trout fishing is a major attraction—it's now over 100 years since the first trout fry were released into the lake and today it is one of the last true wild trout fisheries in the world.

Skiing and adventure activities are other reasons to visit. And when you're not on the lake or up a mountain, you'll find the Taupo town centre crammed with cafes and interesting shops.

The nearby Huka Falls area is great for picnics and nature walks—or you could take a thrilling jet boat ride right to the foot of the thundering water.

A few minutes south of the Lake is Tongariro National Park, New Zealand's first national park and a World Heritage area. It was created in 1887 when its three magnificent volcanoes, Ruapehu, Tongariro and Ngauruhoe, were gifted to the people of New Zealand by the Ngati Tuwharetoa people.

On the western side of the Lake, the Pureora Forest Park is home to such rare creations as the shy kaka or bush parrot and the not-so-shy fluorescent blue mushroom. The Lake Taupo region has some of New Zealand's finest untouched and unspoilt country that is all within easy reach. The scenery is simply breathtaking with the snow capped Volcanoes framing the southern background.
